Signature Attestation Statement

On March, 16, 2010, CMS issued CR#6698 that clarified Medicare Fee-for-Service signature requirements. Attached is an example of an attestation statement that can be used. For more information, please visit http://www.cms.hhs.gov/transmittals/downloads/R327PI.pdf

Signature Attestation Statement

Providers will sometimes include in the documentation they submit an attestation statement. In order to be considered valid for Medicare medical review purposes, an attestation statement must be signed and dated by the author of the medical record entry and must contain sufficient information to identify the beneficiary.

Should a provider choose to submit an attestation statement, they may choose to use the following statement:

“I, [print full name of the physician/practitioner], hereby attest that the medical record entry for [date of service] accurately reflects signatures/notations that I made in my capacity as [insert provider credentials, e.g., M.D.] when I treated/diagnosed the above listed Medicare beneficiary. I do hereby attest that this information is true, accurate and complete to the best of my knowledge and I understand that any falsification, omission, or concealment of material fact may subject me to administrative, civil, or criminal liability.”

While this is an acceptable format, at this time, CMS is neither requiring nor instructing providers to use a certain form or format. A general request for signature attestation shall be considered a non-standardized follow-up question from the contractors to the providers so long as the contractors do not provide identical requirements or suggestions for the form or format of the attestation.
